

Engineered for the elements

APC Technology is Australian owned and operated and provides a full spectrum technology manufacturing capability from build to print through to build to specification.

Key Customers

Capabilities

At APC Technology, we design, manufacture, maintain and support technology solutions built to last in the toughest conditions.

- Design Engineering
- Product Prototyping
- Contract Manufacturing
- Environmental Testing
- Sustainment & Obsolescence Management
- Product Innovation
- Project Management

Standards

MIL-STD - 461, 704, 810, 901, 1275
DefStan, DO-160
ASGVA

Key solutions

Our aim is to conquer the impossible and simplify the complex for our customers that use technology in the harshest environments. We build unwavering reliability and customer confidence into every solution, ensuring success for mission-critical moments.

- Display & Panel PC's
- Consoles
- Message handling systems
- Critical comms
- Uninterruptable power supplies
- Quality of life systems

Accreditation

ISO9001:2015

Partners

Key Markets & Industries

Our focus spans several key markets and industries, including local, Asia-Pacific, US, and European regions. Within these geographic areas, we specialize in defense sectors covering maritime, sea, air, land, and space.

Discriminators

- 40 years of proven capability supplying to the aerospace and defence sectors.
- 100% Australian owned & operated; actively sourcing sovereign capability partnerships.
- A state of the art facility of 1650sqm is centrally located
- Extensive in-house environmental test capability
- Rapid adoption of advanced manufacturing techniques and technology.
- Proven design & manufactured solutions to meet MIL-STD and other applicable standards.
- Sustainment and obsolescence management.
